

KAI-03 Waste bin 50 l. with head and waste vinyl

Body made of 1 mm steel sheet with anti-corrosion architectural paint finish, color to be determined.

Upper head made of 1.5 mm steel sheet, foldable with a system of side axles at the rear of the main body, painted with epoxy. The upper part has a rectangular hole measuring approx. 249 x 139 mm for use without opening the lid.

Bag holder ring made of steel plate painted in anthracite epoxy.

Vinyl waste identification color on the front of the body.

Dimensions: 350 x 240 x 700 mm.

Capacity: 50 liters.

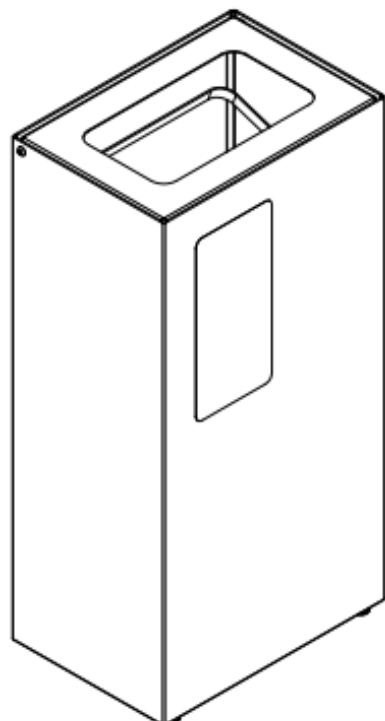

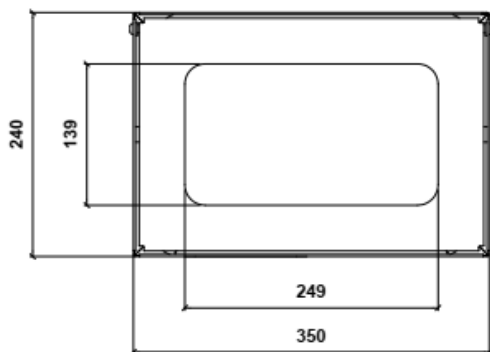

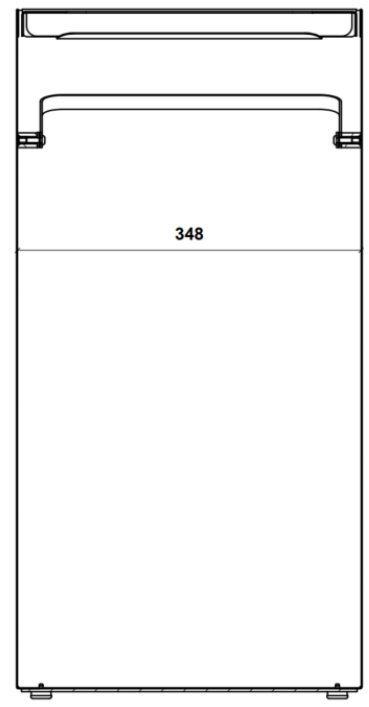

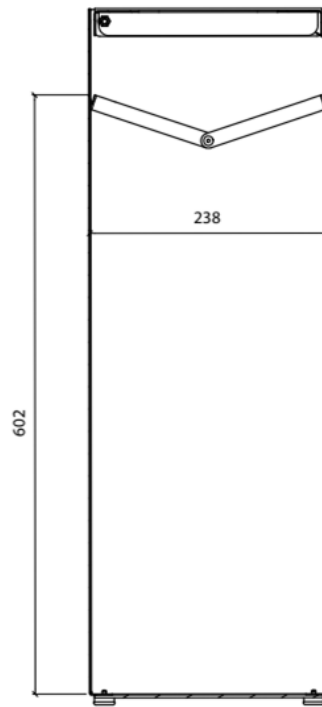

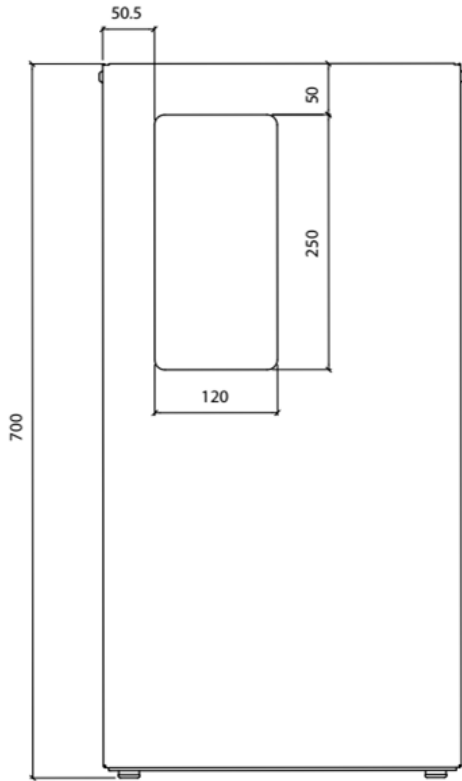

Maintenance: No functional maintenance required. Cleaning recommended with a neutral product and damp cloth.

Fire resistance: Due to the characteristics of its fully metallic materials, the container can be classified as V0.
