

KAI-23 Umbrella stand with split head

Metallic umbrella stand with dividing head and accessory for small umbrella.

1 mm steel body. Plastic injection inner bucket to collect the rest of the water.

Removable 3mm aluminum divider head with 4 slots to order the position of the umbrellas.

Includes accessory for small umbrella to place inside the head.

At the bottom of the base it incorporates 4 non-slip rubber studs at the bottom to avoid direct contact with the ground.

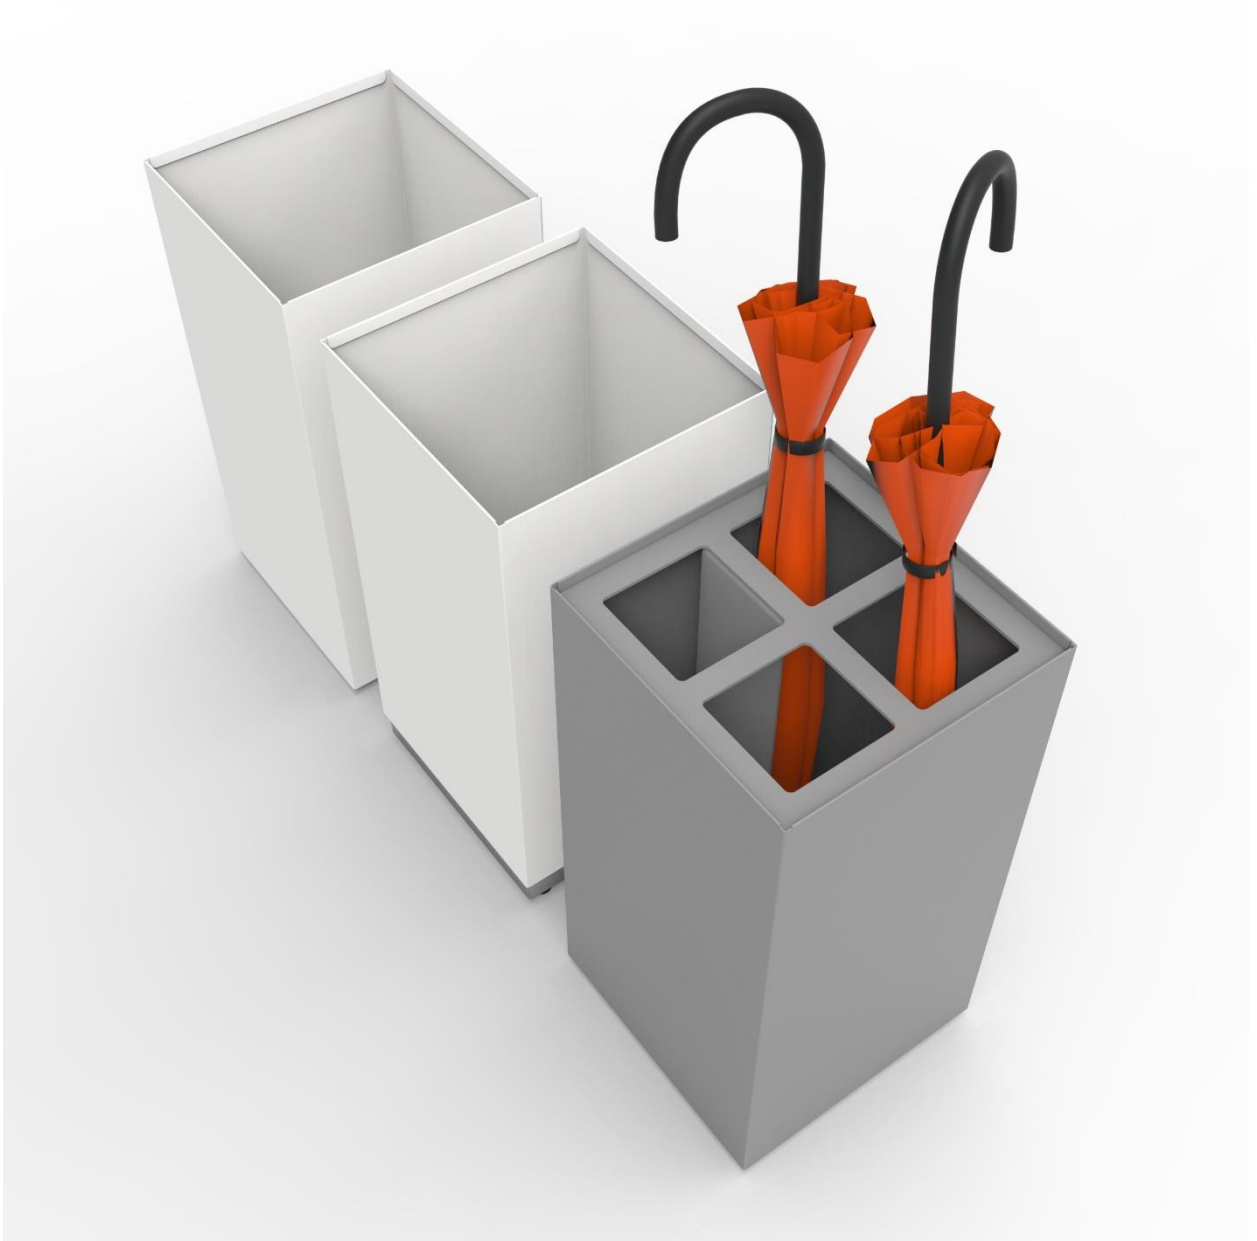

All elements painted in architectural quality epoxy, highly resistant to corrosion.

Dimensions: 249 x 249 x 488 mm.

Maintenance: Does not require functional maintenance. Recommended cleaning with a neutral product and a damp cloth.
