

## KRA-01 Bin with tilted head for 120 liter container

Metallic litter bin, for indoor use, being able to incorporate a standard 120-litres rubbish container with a lid and two wheels inside.

Body in 1 mm zinc-plated steel and painted in oven-baked epoxy paint. 1 mm steel upper inclined head. Hinged front door with built-in handle and closing by means of magnets, made of 1 mm steel, which allows the extraction of the rubbish bin.

Head and door finished in zinc and painted according to the color of the residue.

3 mm steel base thick, galvanized and painted epoxy in the oven, with levelers.

The front part of the base configures a small ramp to facilitate the entry and exit of the dustbin.

Vinyl residue identification color placed on the door (possibility of adapting to graphics at the request of the property).

**Dimensions:** 600 x 609 x 1265 mm.

**Capacity:** 120 litres container

**Functional maintenance:** It does not require functional maintenance. Recommended cleaning with a neutral product and a damp cloth.

**Fire resistance:** Due to the characteristics of its totally metallic materials, the container can be classified as V0.
