

## KRA-02 Waste bin 230 litres with front opening and interior bucket

Metallic waste bin, for indoor use, with front opening and door. It contains a removable interior metal bucket to facilitate emptying the interior content.

Body and front opening in 1 mm steel with a 3 mm steel base that gives the bin stability.

Steel door with lock, folding by means of two hinges.

Galvanized steel inner bucket with wheels for easy movement.

Vinyl residue identification colour placed on the door (possibility of adapting to graphics at the request of the property).

Head and door finished in zinc and epoxy painted depending on the colour of the residue.

3 mm steel base. thick, galvanized and painted epoxy in the oven, with levellers.

The front part of the base configures a small ramp to facilitate the entry and exit of the dustbin.

**Dimensions:** 489 x 529 x 1055 mm.

**Capacity:** 230 litres

**Functional maintenance:** It does not require functional maintenance. Recommended cleaning with a neutral product and a damp cloth.

**Fire resistance:** Due to the characteristics of its totally metallic materials, the container can be classified as V0.
