

## KRA-05 60 litres square hole waste bin

Metallic litter bin, for indoor use with upper opening.

1 mm steel body with a 3 mm steel base that gives the bin stability.

Upper head, 2 mm steel, with the possibility of finishing in the colour of the residue if necessary. 180 x 180 mm square hole.

Hinged front door with built-in handle and closing by means of magnets, made of 1 mm steel, which allows the bag to be removed.

It has a bag holder ring made of 3 mm steel plate with ring supports attached to the body.

All elements finished in anti-corrosion architectural paint, colour to be determined.

The base has 4 levellers to adjust the bin in case of slopes and/or uneven ground.

Vinyl residue identification colour placed on the door (possibility of adapting to graphics at the request of the property).

**Dimensions:** 300 x 300 x 680 mm.

**Capacity:** 60 litres

**Functional maintenance:** It does not require functional maintenance. Recommended cleaning with a neutral product and a damp cloth.

**Fire resistance:** Due to the characteristics of its totally metallic materials, the container can be classified as V0.
