

KRA-o6 Waste bin 60 litres with 2 holes

Metallic waste bin, for indoor use with upper opening.

1 mm steel body with a 3 mm steel base that gives the bin stability.

Upper head, 2 mm steel, with the possibility of finishing in the colour of the residue if necessary. It has 2 circular holes of $\varnothing 90$ mm

Hinged front door with built-in handle and closing by means of magnets, made of 1 mm steel, which allows the bag to be removed.

It has a bag holder ring made of 3 mm steel plate with ring supports attached to the body.

All elements finished in anti-corrosion architectural paint, colour to be determined.

The base has 4 levellers to adjust the bin in case of slopes and/or uneven ground.

Vinyl residue identification colour placed on the door (possibility of adapting to graphics at the request of the property).

Dimensions: 300 x 300 x 680 mm.

Capacity: 60 litres

Functional maintenance: It does not require functional maintenance. Recommended cleaning with a neutral product and a damp cloth.

Fire resistance: Due to the characteristics of its totally metallic materials, the container can be classified as V0.
