

## KRA-09 Waste bin 120 litres with front door

Large capacity metal waste bin for single waste with front door. Possibility of placing concatenated to form recycling islands.

Rectangular 1 mm steel body with front door that has a built-in handle to facilitate its opening and neodymium magnets for hermetic closure and that allows the removal of the bag.

3 mm steel base that gives the bin stability. The base has 4 levellers to regulate the stability of the element in the event of irregularities in the ground.

Rectangular upper head in 2 mm steel (hole 340 x 200 mm) in the colour of the waste to be identified, together with the identifying vinyl on the door.

It has a removable 3 mm steel bag holder ring to facilitate the bag extraction operation.

All elements finished in anti-corrosion architectural paint, colour to be determined.

**Dimensions:** 460 x 340 x 760 mm.

**Capacity:** 120 litres

**Functional maintenance:** It does not require functional maintenance. Recommended cleaning with a neutral product and a damp cloth.

**Fire resistance:** Due to the characteristics of its totally metallic materials, the container can be classified as V0.
