

MINA-o6 60 litres waste bin with inner bucket

60 litres metal waste bin.

Cylindrical steel body painted in architectural quality epoxy, highly resistant to corrosion, colour to be determined.

It incorporates non-slip rubber studs at the bottom to avoid direct contact with the ground.

Inner bucket located at the bottom of the anti-rust galvanized steel bin, which provides great mechanical resistance and total sealing.

Dimensions: ø360 x 646 mm.

Capacity: 60 litres

Maintenance: Does not require functional maintenance. Recommended cleaning with a neutral product and a damp cloth.

Fire resistance: Due to the characteristics of its totally metallic materials, the container can be classified as V0.
