

MOMO-11 Recycling waste bin

Large capacity metal waste bin for outdoor use, which can be fixed to the ground, allowing for selective waste collection.

The main body is made of 1 mm stainless steel and is reinforced internally with two welded $\varnothing 14$ mm shafts. It has two feet that raise the bin off the ground.

Double 1 mm stainless steel head with a $\varnothing 150$ mm circular hole. Folding opening system for easy removal of bags.

A removable plastic bucket is placed inside.

A vinyl sticker is incorporated into the head in the hole to indicate the type of waste.

Finished in architectural-quality epoxy paint, highly resistant to corrosion.

The bin is designed with materials suitable for outdoor use.

Dimensions: 1240 x 340 x 800 mm.

Capacity: 39 litres.

Functional maintenance: No functional maintenance required. Cleaning recommended with a neutral product and damp cloth.
