

NORA-01 Lectern

Fixed metal lectern with inclined envelope.

Element composed of 8 mm steel base that gives stability to the element.

1.5 mm steel column supported by the base with removable cover to facilitate the wiring of the lectern without the need to use tools, by means of a magnet.

Rectangular top in compact phenolic material, 8 mm thick with rounded edges, measuring 570 x 480 mm. It has a paper stop at the bottom.

Metallic elements in epoxy painted finish.

Easy handling by tilting the lectern using wheels at the rear of the base.

Possibility of machining the upper cover of the envelope to adapt accessories such as microphone, lamp, ...

Dimensions: 570 x 479 x 1096 mm.

Maintenance: Does not require functional maintenance. Recommended cleaning with a neutral product and a damp cloth.
