

TALIA-01 Decorative metal planter

Decorative circular metal planter with wheels.

Main metal body made of steel with anti-rust cataphoresis treatment. It incorporates 4 wheels to make it easy to move.

Inside the main body there is a pot of $\varnothing 47$ cm made of recycled plastic in black colour suitable for indoor and outdoor plants.

It has a removable head made of aluminium stamping with perforations in the bottom and covered with a panel of artificial grass, in the event that a natural plant is not required in an interior pot.

All the elements are finished in highly resistant architectural epoxy paint, colour to be determined.

Dimensions: $\varnothing 525 \times 583$ mm.

Capacity: 50 litres

Functional maintenance: No functional maintenance required. Cleaning recommended with neutral product and damp cloth.

Fire resistance: Due to the characteristics of its all-metal materials, the container can be classified as V0.
