

TEA-52 Freestanding magazine rack with 3 shelves for 3 DIN A4

Freestanding magazine rack with 3 built-in shelves for a total of 9 vertical DIN A4.

Metal element consisting of 2 vertical steel tube profiles 50x20x1.5 mm with top and bottom 'L' caps made of 3 mm steel.

The vertical profiles are fixed on a 5 mm steel base which gives stability to the element.

The three shelves fixed to the vertical profiles are made of 3 mm steel and have a flange at the bottom to ensure that the document/magazine does not fall out of the shelf.

Metal elements finished with epoxy polyester paint, architectural quality for greater resistance.

Dimensions: 790 x 314 x 1750 mm.

Maintenance: No functional maintenance required. Cleaning recommended with neutral product and wet rag.

Fire resistance:

Due to the characteristics of its all-metal materials, the container can be classified as V0.
