

TEA-61 Tablet stand - ipad

Metal stand for tablet or ipad.

Element composed of structure and tablet support fixed to the upper part of the structure.

Structure made of 5 mm aluminium sheet with machining on the base to fix the element to the floor.

The tablet support consists of a cover and lower support, made of 2- and 1.5-mm steel sheet respectively. The cover and the lower support are joined by means of screws, which fix the tablet inside and at the same time are fixed to the structure.

Metal elements finished with epoxy polyester paint, architectural quality for greater resistance.

Dimensions: 350 x 283 x 842 mm.

Maintenance: No functional maintenance required. Recommended cleaning with neutral product and wet rag.

Fire resistance:

Due to the characteristics of its all-metal materials, the container can be classified as V0.
