

WON-o2 Swing-top waste bin for 1 waste

Large capacity waste bin, made of steel net, with upper bag holder ring made of 3 mm. steel plate, which tilts on a 3 mm. steel pivot shaft welded to the body, as well as a 3 mm. steel support welded at 180° to the shaft. Hinged head made of 1 mm thick stamped steel, labelled with high adherence vinyl according to the type of waste.

It has a retaining hinge to prevent accidental closure of the head.

In the lower part, it incorporates 4 rubber plugs riveted to the body to isolate the bottom from the floor to prevent direct contact.

All components have a cataphoresis treatment and a light grey, textured, architectural quality polyester epoxy paint finish for greater resistance.

1 mm thick polystyrene panel printed according to residue. Fixed around the perimeter of the upper part of the body.

Dimensions: ø440 x 705 mm.

Capacity: 80 litres.

Maintenance: No functional maintenance required. Cleaning recommended with a neutral product and wet rag.

Fire resistance: Due to the characteristics of its all-metal materials, the container can be classified as V0.
