

WON-o3 Swing-head waste bin 2 waste

Large capacity waste bin, made of steel net, with upper ring made of 3 mm. steel plate, which tilts on a 3 mm. steel pivot shaft welded to the body, as well as a 3 mm. steel support welded at 180° to the shaft. Hinged head made of 1 mm thick stamped steel, labelled with high adherence vinyl depending on the type of waste.

On the inside it incorporates a welded plate as a separator of the two waste with a rubber profile that blocks the bag to prevent it from slipping.

It has a retaining hinge to prevent accidental closure of the head.

In the lower part, it incorporates 4 rubber studs riveted to the body to isolate the bottom from the floor to prevent direct contact.

All components are cataphoresis-treated and finished in architectural quality polyester epoxy paint for greater resistance, in light grey, textured.

1 mm thick polystyrene sash printed according to residue. Fixed around the perimeter of the upper part of the body.

Dimensions: ø440 x 705 mm.

Capacity: 80 litres.

Maintenance: No functional maintenance required. Cleaning recommended with a neutral product and a wet rag.

Fire resistance: Due to the characteristics of its all-metal materials, the container can be classified as V0.
