

WON-04 Wastepaper bin 90 l mesh body with floor fixing structure

Large capacity wastepaper bin, with a structure made of 100x10 mm 6063 T4 reinforced extruded aluminum plate, shaped and finished in textured anthracite, with 4 holes in its lower part that allow it to be anchored to the ground.

Body made of steel deployed mesh, with upper bin bag hoop made of 3 mm Steel plate, which tilts on a 3 mm steel turning axis, welded to the body, as well as a 3 mm steel bracket, welded at 180° from the axis.

All components have a cathaphoresis treatment, and an epoxy polyester paint finish, architectural quality for greater resistance. The body and bin bag hoop are light grey texturate and structure is texturated anthracite grey.

All the screws are in stainless steel, with a painted finish on the visible parts to improve aesthetics.

Measures: 465 x 425 x 855 mm.

Capacity: 90 l.

Maintenance: Doesn't require functional maintenance. Recommended cleaning with a neutral product and a damp cloth.

Fire resistance: Due the characteristics of its totally metallic materials, the wastepaper bin can be classified as V0.
