

WON-05 90 l. mesh body and ashtray with floor fixing structure

Large capacity waste bin, with structure made of extruded 6063 T4 aluminium alloy plate, 100 x 10 mm, shaped and finished in textured anthracite colour, and with 4 holes in the lower part that allow it to be anchored to the floor.

Basket made of steel net, with upper bag-holder ring made of 3 mm. steel plate, which tilts on a 3 mm. steel turning axis welded to the body, as well as a 3 mm. steel support welded at 180° to the axis.

Ashtray in 2 mm steel fixed to the structure with stainless steel damper.

All the components have a cataphoresis treatment and a polyester epoxy paint finish, architectural quality for greater resistance, in light grey, textured in the case of the basket and ring and textured anthracite grey in the case of the structure.

All hardware is stainless steel, with painted finish on visible parts for improved aesthetics.

Dimensions: ø425 x 559 x 855 mm.

Capacity: 90 litres.

Maintenance: No functional maintenance required. Cleaning recommended with a neutral product and a wet rag.

Fire resistance: Due to the characteristics of its all-metal materials, the container can be classified as V0.
