

WON-11#3 Waste bin 2 residues opaque body (70+70 litres)

Large capacity metal waste bin, for 2 residues.

2 mm thick stamped aluminium head with high resistance architectural type paint finish, labelled with high adherence vinyl according to the type of waste determined by the property. The head is attached to the body by means of two metal retention hinges, which prevent the head from closing accidentally when changing bags.

Body made of 2 mm steel with 2 mm thick stamped aluminium base, with internal ballast for greater stability.

Bag-holder ring made of Ø 6 mm steel rod.

All components are cathaphoresis treated and finished in epoxy polyester paint, architectural quality for greater resistance.

Size: ø540 x 840 mm.

Capacity: 140 litres (70+70 litres).

Maintenance: No functional maintenance required. Cleaning recommended with a neutral product and a wet rag.

Fire resistance: Due to the characteristics of its all-metal materials, the container can be classified as V0.
